Typical product characteristics:

Slight color and structure deviations between the production batches are unavoidable. Thickening of threads, knots and foreign weft cannot be excluded with woven fabrics. All flat-weave fabrics roughen through use. Depending on the material, a slight stripe effect may occur. Loop pulls are to be expected when hooked with pointed objects or Velcro fasteners. Pilling is unavoidable and can also be caused by the adhesion of foreign fibers. A certain amount of color fading due to light or abrasion is inherent in the nature of a fabric. Light colors show dirt and denim abrasion faster and more clearly than dark colors. Light colors may cause color migration in combination with dark or intensive color tones. Dark and intensive colors tend to abrasion.

CLEANING INSTRUCTIONS

Daily care and at-home cleaners can keep your fabric looking beautiful for years. In the case of a spill, stain, or general wear and tear, follow our tips on how to clean a fabric.

For cleaning you need distilled water and a ph neutral shampoo.

You need a white, clean and soft cotton cloth. Use this to remove the stain in circular motions and allow the area to dry.

Cleaning only with the vacuum cleaner nozzle.

Recommended care labeling:

washing

bleaching

drying

ironing

dry cleaning

Instructions for use and care:

We assume no warranty for damage caused by improper use, cleaning, care, subsequent impregnation and pets.

Cleaning instruction:

Important information and useful tips for optimum cleaning and care of your upholstery fabric can be found at www.2-clean.de. Further cleaning will have to be done by professionals who specialize in how to clean with this description.
